Parent Review

"The tutors there (METC) were a lifesaver for my 11th grade son who needed help with Algebra 2, PSSA prep and his graduation project. We attend a cyber school which is great, but he needed the one-on-one attention and the time he got from his tutor there. They are wonderful and worth every penny. I wish we knew of METC's Tutoring Studio way back when, they could have saved us the thousands of dollars we spent at an area chain tutoring center. I highly recommend them (METC)!"
